• AIS Vehicle Running Gear Inspections  
• AIS Associated Vehicle System Inspection  
• AIS Vehicle Inspection Structure  
• AIS Administration                                                              | 10 hours | $445                        |                                                                                                                                                                                                                                             |

**Authorised Inspection Scheme (AIS)**
Proprietors and Examiners are authorised by Roads and Maritime Services as public officials when carrying out their AIS responsibilities.

**Authorised Proprietor’s responsibilities**
- Manage station’s authorised examiners
- Manage activities of the accredited station
- Manage compliance with relevant rules and standards.

**Authorised Examiner’s responsibilities**
- Inspect vehicles within their accreditation and AIS Rules.

The combined proprietor and examiner course is recommended for examiners as this gives them an understanding of a proprietor’s responsibilities.
