Using Safetyhub videos in Moodle

Safetyhub is an online library of workplace health and safety training videos, which can be accessed via EQUELLA. You can give students seamless access to individual videos in the Safetyhub collection, specific video categories or the complete Safetyhub site from any Moodle course or unit page.

1. Go to your Moodle course or unit page and click on the Turn editing on button.

2. Decide where you want to include the Safetyhub content.

3. At the bottom of that section, click on the Add an activity or resource link.

4. In the pop-up box that appears, scroll down, click on the EQUELLA Resource option and then click on the Add button.

5. A new pop-up box will appear – you are now inside EQUELLA. In the Enter search terms field enter the word Safetyhub, and in the Within all resources field select Illawarra Library eResource Collection. Click on the blue button to start the search.

6. Your top 2 search results should be for the following records:

   a. SafetyHub – SafetyCare online access - this record gives you direct access to the Safetyhub homepage, and to the specific video categories.
b. **SafetyHub – SafetyCare individual safety training videos** - this record gives you direct access to the individual Safetycare videos.

7. Click on the title of the appropriate record. For this example, we will use the second record.

8. Once inside the record, find the desired video and click on the **Plus** button to the right of the title.

9. You will now see on the right hand side of the screen that 1 item will be added to the Moodle section you were working in. You can click on the section title at any time to confirm that you have selected the right item.

10. If you wish, you can continue selecting other items to add to your Moodle. When you are finished, click on the **Save** button in the top right hand corner of the screen.

11. There will now be a link/s to the selected item/s at the bottom of your Moodle section. Use the **up/down arrow** to drag the link/s into the most suitable position in the section.
Need more help?

If you need more help with using Moodle or EQUELLA, contact the Teaching and Learning Initiatives unit at tli.illawarra@det.nsw.edu.au.
